

## **Engineering Technical Order**

Date: Tuesday, October 11, 2011

### **Return of extra Digital DCU Boards, R400-90/190A13A2 PWA, NEXRAD**

Supply is critically short; NLSC has 12 units in house. Half of the units are beyond economical repair. The National Reconditioning Center requests each site with more than one Digital DCU Board on hand to return it to the NRC.
